

Benefit of Ion-Cleanse

Everyone holds toxins in their body whether or not symptoms are present. The full body cleansing and detoxing that the Bio-Cleanse accomplishes would therefore benefit everyone, but those most likely to notice benefits would be:

- Persons suffering from allergies
- Persons suffering from arthritis
- Persons with pain in body
- Heavy metal toxicity
- Children with autism
- Supports all healing modalities
- Athletes who need to rid their bodies of lactic acid quickly
- ADD/ADHD patients
- Persons recovering from accidents
- Anyone with low energy
- Anyone under severe stress of suffering from fatigue and/or burnout

Why Detoxify The Body?

In today's toxic environment, tissue acid wastes, chemical and heavy metal residues build up in the body faster than ever before, resulting in a greater incidence of allergies, mental, and physical incapacitation. We have begun to hear more about herbal and homeopathic detoxification programs by alternative health practitioners as a way of reducing symptomology and maintaining health.

All healing traditions - Egyptian, Native American, Ayurvedic, Homeopathic, Chinese, Shamanic - except Western Medicine offer body purification as a means of healing and avoiding disease.

Pimples, rashes, dark circles under the eyes, swollen joints, yellow, green and blotched complexions often indicate a buildup of tissue acid wastes inside the body. Dietary modification and herbal detoxification supported by IonCleanse® sessions have been shown to substantially reduce and even eliminate these conditions.

IonCleanse® sessions will support any body cleansing modality and may even reduce the discomfort associated with rapid purification.

Today we are exposed to the greatest toxic load in the history of our planet and ongoing periodic detoxification is essential to maintain health and avoid disease. The IonCleanse®, in combination with a healthy, low-stress lifestyle, provides a thorough and efficient way to maintain high energy levels and long term wellness.

It appears that the IonCleanse® helps to purify the body more effectively because of its stress reducing and relaxing effects. The IonCleanse® provides a comfortable purification support system.

How Ion-Cleanse Works

Generating Ions

An ion is a charged atom that has gained or lost an electron which creates a magnetic field capable of attaching to and neutralizing oppositely charged particles. These neutralized particles are extracted from the body through the process called osmosis. Osmosis is a scientific term that is used to describe the movement of particles through a membrane from an area of lower concentration to an area of higher concentration. In this case, the higher concentration refers to the ion field that is set up by placing the array into the water while running the unit.

The array is placed into the water alongside the hands, feet, or body while the power supply delivers a low level direct current to the array. This causes the metals within the array in combination with water and salt to generate positively and negatively charged ions by separating oxygen and hydrogen in the water.

The practitioner determines the polarity setting through the use of litmus paper (pH strips) or muscle testing. We speculate that ions generated by the Ion-Cleanse travel through the body attaching themselves to a multitude of toxic substances, thereby neutralizing their positive or negative charge. It may be possible to reduce pain and other symptoms caused by a lifetime of toxic buildup in the body (assuming the symptoms are caused by toxic buildup). The long-term effectiveness of the Ion-Cleanse detoxification process depends on other life-enhancing changes a person is willing to make.

The Meaning of Positive and Negative

For the purpose of Ion-Cleanse discussions, positive and negative relate to electrical rather than chemical phenomena.

When the Ion-Cleanse is set to positive, the current is directed to the positive pole, which results in the production of more negative ions in the water. Therefore, a positive polarity generates a negative ion flow which, we believe, raises blood pH from acidic toward alkaline.

When the Ion-Cleanse is set to negative, the current is directed to the negative pole, which results in the production of more positive ions in the water. Therefore, negative polarity generates a positive ion flow which, we believe, lowers blood pH from alkaline toward acidic.

Healthy individuals can expect to feel lighter and experience a greater sense of well being from each Ion-Cleanse session. Many people with pain, edema, gout and swollen or deteriorating joints report considerable symptomatic relief from Ion-Cleanse sessions. Just read what patients and doctors have had to say...

Personal Testimonials

My once swollen ankles are now normal size after six treatments. They tend to retain fluid when I am under stress, but one or two treatments brings them back to normal size.

~ Ellen Zimmer, Spring Valley, WI

The liver spots that used to be all over the back of my hands and arms are almost completely gone.

~ Louise Webb, Durango, CO

My 85 year old mother could not work in the garden because of severe pain and stiffness. She can now work a few hours every day and fights me for the Ion-Cleanse.

~ Gordon Pierce, Littleton, CO
